THE DIRECTOR OF CENTRAL INTELLIGENCE

WASHINGTON, D.C. 20505

National Intelligence Council

17 December 1982

MEMORANDUM FOR: Director of Central Intelligence

FROM : NIO At Large

STAT

SUBJECT : Congressional Presentation

1. Here are the NIC's first draft suggestions. Note that they come in two portions.

2. The first of these is a draft DCI statement which is purposely aimed at high-impact: that is, focusing on those subjects which are of key importance, which dramatize what it is that intelligence can uniquely contribute to policymaking, and which give opportunity -- through accompanying graphics -- to illustrate some of our best evidence. This draft is purposely on the longish side at this juncture; it will be shortened to fit those points you particularly wish to stress. The drawback of this type of high-impact presentation is of course that because of time constraints, certain other subjects have to give, or at least await the question-and-answer portions of your presentations.

3. The second part of the attached is backup material. This consists of three types: (1) an alternative DCI presentation which covers more topics, is more a tour of the horizon, and necessarily has to cut back on portions of the high-impact items; (2) a few (rough) illustrative samples of graphics materials; and (3) a few (rough) illustrative samples of fuller backup text on certain questions.

4. I will enjoy learning your preferences for presenting these materials, and how the NIC can improve them for your subsequent review.
